## *"He Did It His Way"*

Joe Valentine lived his life just the way he wanted to  
He lived life large and fast, and with a bit of an attitude

He was successful at everything, he had the midas touch  
I'm really going to miss him, for I loved him very much

God broke the mold after he formed Joe Valentine  
He was an original, a masterpiece, a one of a kind

No one could control him, for he lived life his own way  
He was the boss in every situation, at work or at play

Joe was my Longhorn partner and my dear friend  
He was always special to me, up to the very end

I liked him from the very first day we met  
And a special friendship was born, one I'll never forget

He was a leader, a man's man, he was tougher than nails  
He fought for what he believed in, whether life flipped heads or tails

Longhorns and Lorinda were the two loves of his life  
The first was his passion, the other his wife

He loved Longhorn cattle, more than anyone in our Industry  
They were his friends, his art, they connected him to history

Because he was who he was, he was often in the center of a storm  
His leadership helped steady the boat and bring peace back to the norm

He was a great salesman, a marketing genius I've never seen the like  
He did more than anyone to make Longhorns bring prices out of sight

Sure, we had our disagreements and even some fights  
Once the fussing was over, Joe always did what was right

To lose Joe from this earth is like a mountain being cast into the sea  
The Boss, The Legend, My friend is gone, he has slipped into eternity

Faith, Family & Friends were important to Joe more and more  
As he grew older, he often thought about passing through eternity's door

He leaves behind a Legacy of leader-  
ship, of charity, of being his own man  
There is a vacuum in our hearts, the  
glass broke and out flowed the sand

No matter what people say or think about him,  
one thing is here to stay  
Joe Valentine left a legacy as he lived his life by doing  
things his own way

## WELCOME TO THE PANTHER CREEK RANCH COMPLETE HERD DISPERSAL

---

It is such a tragic loss to have lost Joe Valentine to cancer. But today he is in a much better place with no more suffering and pain. We are happy for Joe, but very saddened by our loss, for we lost a Texas Longhorn Industry Leader, a Legend, a Icon and a friend. Joe had owned Longhorns for over 40 years and at one time he had a herd of over 1200 head. Joe was a member of the TLBAA, the ITLA, and a founding member of the TLMA.

It was Joe's desire for his wife Lorinda to sell the Longhorn herd, liquidate and move back home to Texas to be with her family. So she is following his wishes and doing exactly what he wanted her to do.

This entire herd will sell at absolute auction with no reserves. This means 100% of the animals in the catalog will go home to new owners, regardless of price.

The Panther Creek herd consist of many great producing cows. We all know that the collectors are always in high demand, but a breeder that has been around as long as Joe realized the real valuable ones are the producers that produce the ones people want to collect. You will find many great producing Longhorn cows that will add great value to your program. You will also find 17 JP Rio Grande daughters available in this herd dispersal, plus several JP Rio Grande calves at side. We think that this is the most ever offered at any one public auction.

You will honor Joe and help continue his legacy by attending this sale and buying one of his cows. There are 110 lots in the sale, and nothing would please us more than to see them go to many different breeders all wanting to show their respects and to honor a friend that was so important to the Longhorn Industry.

We apologize for having to establish a date so quickly, but we had very few options. We didn't mean to step on anyone else's Longhorn event that was planned on the same date, we simply had to go with September 27th.

We take this opportunity to welcome you to the Sale and we hope you have a great time as we all witness one of the greatest Longhorn herds in America dispersing to many of Joes great friends, from all across America.
